industrial & commercial floor systems

Durable flooring that looks great!

The ideal flooring solution for offices, showrooms, retail and domestic applications. Decoloc® flooring combines durability, ease of maintenance and good looks!

The Decoloc® system features an attractive slate-look finish and is available in a number of exciting natural colours for maximum creativity. The riven surface finish provides high levels of slip resistance and feels great underfoot! Decoloc® interlocking floor tiles are very durable and they are especially suited to hard working environments with high levels of foot traffic including showrooms, shops, offices and private garages amongst others...
