

Murray's

Specialist Dental Seating

The Company

Established in 1953, Murray Equipment is now the largest producer of operator's stools for dentistry in the U.K. supplying not only dental practices but also dental clinics within the armed forces both in the U.K. and abroad. Murray stools are also in use at many U.K. dental teaching schools/universities across the country.

Murray stools can be supplied through the dental supply companies, some of whom have been purchasing Murray stools from the company for over 50 years. Most of the supply companies have showrooms and will be able to offer an excellent service. All Murray stools are made to order.

Every Murray stool carries a five year guarantee, and the company is accredited with ISO9001. Murray stools are also CE marked for quality and reliability.

If you would like further information please contact us, we thank you for requesting this brochure, which we hope you will find of interest.

Features on Murray Stools

Swing around backrest

Ideal for the nurse, the backrest has the capability to rotate 360 degrees around the circular seat, can be used as an armrest as well as a backrest, there is also a ratchet system which allows the backrest to move horizontally across the seat. The mechanism used by Murray's is unique. The arm runs on ball bearings making movement very quiet and smooth.

Lumbar support backrest

All the lumbar support backrests on Murray stools are fully adjustable, both for height and rake. They can be locked in to any position or left free floating. The backrests are shaped in order to support the lumbar curve. Rubber protection is fitted around the edge of the backrest and seat on most Murray stools to give extra protection and to stop the vinyl from getting damaged.

Circular seat

Murray fit a 400mm diameter seat with 90mm thickness, the foam used is vacuum moulded from our own tooling to ensure a perfect size and finish every time.

Sculptured seat

A number of different shaped seats can be supplied, all designed to give maximum support to the buttocks but also reduce pressure on the thigh muscle, this is achieved by being able to tilt the seat forward.

"Murray Equipment have been a key supplier to the Dental Directory for many years. The range continues to evolve as it incorporates new technology, materials and design. Supported by an unprecedented 5 year guarantee, we have confidence that the quality of build and materials used are of the highest standard. Our customers' satisfaction is the priority and Murray's service and products have always met or exceeded expectation."

Mark Wheatstone, Technical Sales Director, The Dental Directory.

Why pay more for a stool with fewer features?

Gemini Range

HGEM/SAB

SGEM/GT

Finished in RAL9002 cream the Gemini range offers excellent value for money, the high model designed for the nurse/assistant has a height range of 550 to 730mm measured from the floor to the centre of the seat. It has an adjustable foot ring and a swing around backrest which can be rotated 360 degrees around the seat it also has a ratchet system which allows the backrest to be moved across the seat. The Gemini for the surgeon is fully adjustable for height, tilt and back rake. In addition to these facilities the backrest and seat tilt can be locked in a free floating position.

Codes	Models	Guide price
HGEM/SAB	High model with swing around backrest	£435.00+VAT*
SGEM/GT	Standard height model with lumbar support backrest	£360.00+VAT*

*Purchase both together with same upholstery and **save £40.00**. Total £755.00+VAT

Height range measured from floor to centre of seat

HGEM/SAB	550 to 730mm
SGEM/GT	480 to 610mm

Advance Range

HADV/GN

SADV/GT

SADV/NB

The Advance is the most popular range, available as a high model with chrome plated adjustable foot rest and circular seat, ideal for the nurse/assistant or a standard height stool for the surgeon with lumbar support backrest and ergonomically shaped seat to give the operator the correct working position. There is multi backrest adjustment and the seat can be angled forward on the dentist's model. A well priced very versatile range suitable for the total dental team. It can also be supplied with a circular seat and no backrest. A large upholstery colour range is available.

Codes	Models	Guide price
HADV/GN	High model non seat tilt action	£375.00+VAT*
SADV/GT	Standard height model with forward seat angle facility	£371.00+VAT*
*Purchase both together with same upholstery and save £36.00 . Total £710.00+VAT		
HADV/NB	High model with circular seat no backrest	£281.00+VAT
SADV/NB	Standard height model with circular seat no backrest	£245.00+VAT

Height range measured from floor to centre of seat

HADV/GN	550 to 750mm
SADV/GT	500 to 630mm
HADV/NB	550 to 750mm
SADV/NB	460 to 590mm

Posture Range

The formed seat on the Posture stool is cut away at the front edge to allow the operator to get close to the patient's chair. The seat and backrest adjust independently, it is possible to angle the seat forward as well as being able to adjust the height and rake of the backrest.

POS/DC

POS/NB

Codes	Models	Guide price
POS/DC	Posture with backrest and foot rest	£410.00+VAT
POS/NB	Posture with foot rest without backrest.	£293.00+VAT

Height range measured from floor to centre of seat 550 to 760mm

Zodiac Range

The Zodiac features include a circular seat measuring 400mm in diameter with 90mm dense foam filling. The unique shaped backrest can be used as an arm rest as well as a backrest and can be adjusted for depth. The chrome plated backrest bar is angled for maximum comfort.

HZOD

Codes	Models	Guide price
HZOD	High model with backrest and foot rest.	£410.00+VAT
SZOD	Standard height model with backrest.	£342.00+VAT

Height ranges measured from floor to centre of seat

HZOD	560mm to 740mm
SZOD	460mm to 580mm

Saddle Seat

Saddle Seats help you to maintain an upright posture when sitting. Feet are placed flat on the floor at a greater width than with conventional seating. The weight of the legs is taken through the feet. The upper body is stabilized accordingly. The pelvis is held securely in a natural position. The standard upholstery colour is black, however for a small extra charge, the stools can be upholstered in any shade shown on our colour chart. Please refer to page 17.

SDL/12

Code

SDL/12 Saddle seat with seat angle adjustment

Guide price

£355.00+VAT

Height range measured from floor to centre of seat 560 to 750mm

Waiting Room

WR/ARM

Waiting Room Chair

Beech framed stylish furniture available in a range of contract fabric upholstery, can be supplied with or without arm rests.

		Guide price
Size of seat	470mm x 450mm	£135.00+VAT
Size of backrest	400mm x 300mm	
Height of seat	470mm	

Laboratory Chair

Available as a high model with foot ring or as a standard height chair; both chairs have a sculptured seat which can be adjusted for height and forward tilt, the backrest can also be adjusted for height and rake. This is an extremely comfortable chair when used over long periods of time. The black GRP base measures just 600mm in diameter and there is a choice of castors available.

HLAB

Code	Models	Guide price
HLAB	530mm x 720mm High model	£375.00+VAT
SLAB	440mm x 570mm Standard height model	£371.00+VAT

Reasons For Choosing Murray stools

Murray Equipment has been manufacturing operator's stools for over 55 years.

Murray fit an aluminium base of 600mm diameter and finished in RAL9002 cream. The twin wheeled castors are 50mm diameter and have a rubber surround, this makes moving the stool smooth and effortless.

The chrome plated foot ring can be easily adjusted.

The swing around backrest which is unique to Murray's, runs on ball bearings, again giving very smooth movement. It also has a ratchet system which allows the backrest to be moved across towards the seat, allowing the operator to use it as an armrest as well as a backrest.

The formed seat and back ply boards are 10mm thick and made from high quality beech wood.

All the Naugahyde upholstery vinyl used is contract standard, it meets or exceeds the latest fire retardancy specifications and is latex free.

All Murray stools are hand built at the Company's workshops in Chichester; they are manufactured from the finest quality components and every stool carries a five year guarantee. The majority of stools supplied by our competitors are manufactured abroad, therefore you are paying extra costs for shipping and import duty, not necessarily for a higher specification.

Murray's are able to supply stools upholstered in all colours including A-dec, Anthos, Belmont, Planmeca, Sirona and Technodent. There simply is no need to pay more for a stool with fewer features.

Murray Equipment has been accredited with ISO9001 and all Murray stools meet the European CE mark for quality and reliability.

Why pay more for a stool with fewer features?

Upholstery Shades Our standard upholstery shades are from the Naugahyde range, these meet the strict fire and safety regulations and are tested up to Crib 5. As well as all the colours shown below we can supply Belmont, A dec, Sirona and many other dental colours.

Testimonials

"With our wide and diverse customer base, we had to find a seating manufacturer that not only meets our varying customers' needs, but also delivers on quality and reliability, time and time again, all within a reasonable budget. For us, Murray Equipment make an ideal trading partner."

Andrew Nicholls, Dental Services Direct. Dunstable, Blackburn, East Kilbride

"Bondent has been a supplier of Murray stools for many years and has always been impressed by their quick response and the quality of their products. If you're looking for stools, make Murray Equipment your number one choice."

Phil Beard, Bondent UK Ltd. Twickenham

"Murray Equipment are an extremely efficient and professional company to deal with. Always helpful and adaptable. Offering a reliable and wide range of stools to suit all individual needs. We are pleased to be associated with their name."

Dental Integrated Systems Ltd. Plymouth

"At Hague Dental Supplies, we have been supplying Murray stools to our customers for over a decade. During this period, a problem has been exceptionally rare, and there has never been a problem that wasn't rectified immediately."

Murray Equipment offer a good value range of stools to match most manufacturers colour schemes.

This means that the Dentist can be offered a high quality alternative product, to the main equipment suppliers' often limited range, without upsetting the aesthetics of the surgery."

Hague Dental Supplies. South London

"We here at Promec Dental have always found Murray Equipment to be accommodating, helpful and prompt on deliveries. The quality of manufacture against value for money makes Murray Equipment an obvious choice."

Promec. Kinver, West Midlands

"Dentaquip has been purchasing equipment from Murray Equipment for over 20 years. During this time we have found their products to be robust and extremely reliable. These factors together with the obvious quality and attention ensure that the end user can be confident of receiving a product that delivers up value for money each time they buy from the range."

Tom Kennedy, Dentaquip. Northern Ireland

"An excellent well made product, with a large variety of colours. Complete with a good customer care service which gives a good all round package."
