

Patrol - entrance mat in rolls

MUOVIHAKA OY

Patrol mat is specially designed as an attractive and easily cleaned entrance mat for all intense wear areas; shopping malls, hotels, commercial premises, airports, schools, etc. Patrol is extremely strong matting for a long life span in demanding indoor and outdoor conditions. Patrol offers excellent performance for heavy foot and trolley traffic.

Patrol entrance mat stops dirt, sand and debris in the entrance area before they enter the building. Less dirt in building means lower maintenance costs, a reduced likelihood of costly slips and falls, and improved overall appearance.

Patrol offers excellent performance for both foot and trolley traffic

Patrol is strong matting for demanding conditions

Patrol - entrance mat in rolls

Patrol mat in a roll format

Patrol is delivered in rolls and is quick and easy to install. Patrol is ideal to cover large areas with a single mat. Rolls are also very easy to cut to size and shape. Rolls can be installed in minutes, without the use of special tools. Rolls can also be assembled together with connectors.

Excellent drainage and non-slip surface

Patrol has slip resistant surface pattern and it offers maximum drainage. Slip resistant surface literally scrapes the dirt off shoes. The unique circle construction allows water to pass through the mat, providing safe and dry surface.

Unique circle design, easy maintenance

Patrol is simple to clean, since it has open circle grid design and it is non-absorbent. Patrol is inexpensive to clean by vacuum cleaning or hosing down. Lightweight Patrol matting is easy to roll up for maintenance. Dirt that falls through the mat can be simply cleaned from the floor underneath.

Accessories:

Patrol edging 16 mm x 300 cm
Aluminium edging 16/20 mm x 300 cm

Patrol - entrance mat in rolls

Accessories:

Plastic edging 16 mm

Patrol plastic edging is specially designed for surface mounted applications on finished floor surfaces and for indoor and outdoor conditions.

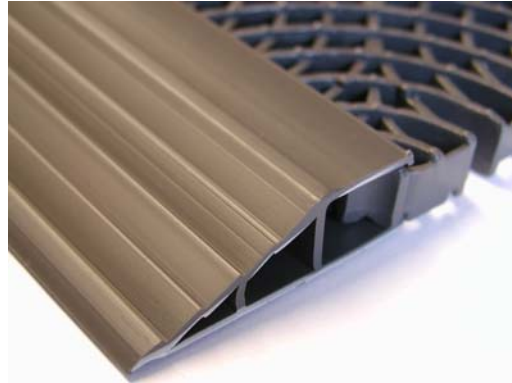

Material: UV-resistant PP/rubber

Length: 300 cm

Height: 16 mm

Weight: 290 g / m

Colour: grey

Aluminium edging 16/20 mm

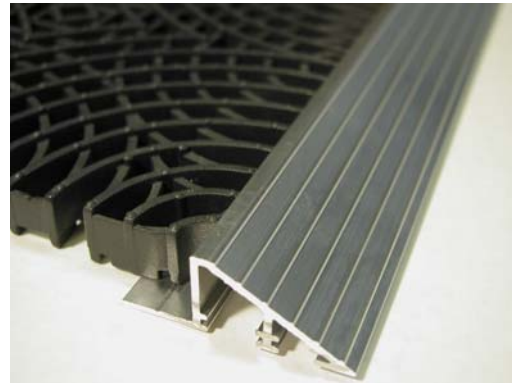

The bevelled surface of the edging minimizes the possibility of tripping and allows use of wheeled carts. It withstands heavy loads and is suitable for heavy wheeled traffic.

Material: anodised aluminium.

Height: 18 mm

Length: 300 cm

Weight: 460 g/m

Patrol anchors

Patrol installation anchors are used to secure sections of mats to floor. If there is a risk that entrance mats might move due to heavy foot or trolley traffic, installation anchors prevent mats from moving and sliding around.

Material: nylon

Height: 16 and 20 mm

Colours: black and grey

Ø 15 mm

Patrol connectors 16 / 20 mm

Patrol connectors can be used for joining sections of Patrol matting together.

Material: ABS

Height: 16 and 20 mm

Colours: black, terracotta, graphite and grey
