

DURASTRIPE OUTDOOR

Easy to install peel & stick striping and signage, engineered especially for outdoor use and other challenging environments. Two versions: **Outdoor** and **Outdoor Max** for more than just outdoor applications.

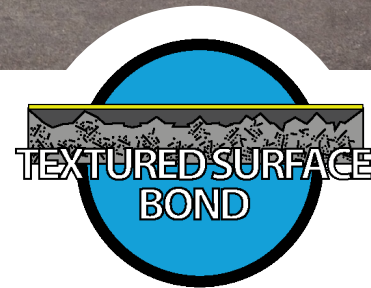

STRONG BOND

NO MORE PAINTING

COLOR VARIATIONS

TEXTURED SURFACE BOND

Strong Bond – Aggressive bonding properties deliver exceptional performance in cold and wet environments.

No More Painting – Save hundreds on paint and no down time while paint dries. Peel & Stick striping is applied in rolls.

Color Variations – 7 solid colors and 4 hazard stripes offer multiple visual identification options.

Textured Surface Bond - **Outdoor Max** has a thick conformable adhesive making it perfect for textured surfaces.

Adhesive Technical Data

	<i>OUTDOOR</i>	<i>OUTDOOR MAX</i>
Thickness	.035 in 0.85mm	0.1 in 2.5 mm
Adhesion to Steel N/25*	40	50
Shear Adhesion (min)**	30	50
<small>(23°C, 500g, 100mm²)</small>		
Temperature Resistance	-40°F (-40 °C) to 212°F (100°C)	-40°F (-40°C) to 194°F (90°C)
